

# Aerial surveying UAV based on open-source hardware and software

János Mészáros

Dept. of Cartography and Geoinformatics, Eötvös Loránd University of Budapest, Hungary, [messer@map.elte.hu](mailto:messer@map.elte.hu)

A screenshot of the DIY Drones website in a Firefox browser window. The page features a navigation menu with links like 'Main', 'Store', 'Getting Started', 'Forum', 'Blogs', 'ArduPilot', 'ArduCopter', 'Other Autopilots', 'Members', 'Chat', and 'MyPage'. The main content area includes a 'Welcome To DIY Drones' section with a satellite map showing a yellow flight path, a 'Latest Activity' feed with user comments, and a 'Top Content' list. The user 'János Mészáros' is logged in, with a profile sidebar on the right showing options like 'Sign Out', 'Inbox', and 'Alerts'. A 'Groups' section at the bottom lists 'ArduCopter User Group' and 'APM User Group'.
